Dear Sir,

I am writing to commend Orelly Kapasi, M.D. FACS,
and his staff for their competent care during my
arthroscopic knee surgery on 9/1/08 at the Faulkner Hospital.

Although initially very apprehensive about the
procedure, I soon became more relaxed from my
first meeting with Dr. Kapasi. His knowledgeable +
considerate reassured me that I was in good hands.

All the staff who attended me were also
very skilled + caring. The surgery went well + the results
were excellent.

I have recommended Dr. Kapasi to friends
who may need similar surgery + have described the
experience as a very positive one for me.

Sincerely,

Rosemary D. Calaruso
