Dear Dr. Kapasi,

I would like to express my heartfelt gratitude for the wonderful service you had given me with tender loving care, humor and compassion inspite of my inability to remunerate you handsomely.

The pain relief injection was really great that I no longer have the pain except for some occasional muscle stiffness at my hips, buttocks or thighs sometimes. But mostly, I'm recovering fast and I thank you so much Dr. Kapasi for this. You are my guardian angel and wish and pray for your continued sound treatment for people like me. You are the best !!!

May the Lord God bless us all.

Many thanks again.

Very sincerely yours,

Ulrika
